

Author meet

An Author Meet was organised at Cambridge School, Indirapuram, in November as a part of the Bookaroo Children's Literature Festival's Outreach Programme. Bookaroo Children's Literature Festival is a plethora of literary activities organised for the children of different age-groups. It is a platform where children interact with authors, illustrators and story tellers and get carried away to the enchanted world of fiction. Archit Taneja, an author and a software engineer had a session with the students of class VII based on his new book 'The Case of the Candy Bandit'. During the session, the students solved a couple of crazy mysteries through unconventional and weird means! Children had a wonderful session and shared their experiences with the author.
